CONTENTS OF VOLUME 2

Number 1, February 1962

Note i

Ernst Scharrer and Stanley Brown. Neurosecretion in *Lumbricus terrestris* . 1

Kunio Matsumoto. Experimental Studies of the Neurosecretory Activities of the Thoracic Ganglion of a Crab, *Hemigrapsus* 4

Donald M. Maynard and Edith A. Maynard. Thoracic Neurosecretory Structures in Brachyura. III. Microanatomy of Peripheral Structures 12

Ian Cooke. Effects of the Pericardial Organ Neurosecretory Substance on the Crustacean Heart 29

Berta Scharrer. The Neurosecretory System of *Leucophaea maderae* and Its Role in Neuroendocrine Integration 30

Robert B. Willey and George B. Chapman. Fine Structure of Neurons within the Pars Intercerebralis of the Cockroach, *Blaberus craniifer* 31

Rudolph L. Pipa. A Cytochemical Study of Neurosecretory and Other Neuroplasmic Inclusions in *Periplaneta americana* 44

Robert H. Barth, Jr. The Endocrine Control of Mating Behavior in the Cockroach *Byrsotria fumigata* (Guérin) 53

Nancy S. Milburn and Kenneth D. Roeder. Control of Efferent Activity in the Cockroach Terminal Abdominal Ganglion by Extracts of Corpora Cardiaca . 70

M. V. L. Bennett and S. Fox. Electrophysiology of Caudal Neurosecretory Cells in the Skate and Fluke 77

Howard A. Bern and Noboru Takasugi. The Caudal Neurosecretory System of Fishes 96

Dorothy C. Billenstien. The Seasonal Secretory Cycle of the Nucleus Lateralis Tuberis of the Hypothalamus and Its Relation to Reproduction in the Eastern Brook Trout, *Salvelinus fontinalis* 111

Donald S. Farner and Andreas Oksche. Neurosecretion in Birds 113

Alexander Leaf. Action of Neurohypophyseal Hormones on the Toad Bladder . 148

William Etkin. Neurosecretory Control of the Pars Intermedia 161

Announcements 170

Number 2, April 1962

Edwin Dale. Steroid Excretion by Larval Frogs 171

M. X. Zarrow, D. L. Greenman, J. Kollias, and D. Dalrymple. The Pituitary-Adrenal Axis in the Bird 177

Franz Engelmann. Further Experiments on the Regulation of the Sexual Cycle in Females of *Leucophaea maderae* (Blattaria) 183

Suzette Manté-Bouscayrol, Guy Cartouzou, Raymond Depieds, and Serge Lissitzky. Electrophoretic Characterization of Cellular Thyroxine-Binding Proteins: Skeletal Muscle and Brain of Rabbit 193

P. J. Schmidt and D. R. Idler. Steroid Hormones in the Plasma of Salmon at Various States of Maturation 204

Johannes Moll and David De Wied. Observations on the Hypothalamo-Posthypophyseal System of the Posterior Lobectomized Rat 215

Irwin Pesetsky. The Thyroxine-Stimulated Enlargement of Mauthner's Neuron in Anurans 229

N. R. Moudgal. Immunochemical Investigation of a Biologically Active Core Obtained from Chymotryptic Digestion of Bovine Growth Hormone . . . 236

Margaret Clements-Merlini. Metabolism of I^{131} by the Endostyle and Notochord of Ammocoetes under Different Conditions of Temperature 240

Number 3, June 1962

Gunnar Fridberg. The Caudal Neurosecretory System in Some Elasmobranchs . 249

Roy V. Talmage, S. B. Doty, and C. W. Yates. The Effect of Temperature on the Uptake of Radioiodine by the Thyroid Gland of the Frog, *Rana pipiens* 266

Anders Enemar and Claes von Mecklenburg. The Growth Response of Frog Tadpoles to Pituitary Implants from Different Vertebrates 273

Hideshi Kobayashi and Aubrey Gorbman. Thyroid Function in *Amphiuma* . 279

Leo E. Reichert, Jr. Proteinases of the Pituitaries of Several Fish and of a Whale 283

Ronald R. Novales, Barbara J. Novales, Stephen H. Zinner, and John A. Stoner. The Effects of Sodium, Chloride, and Calcium Concentration on the Response of Melanophores to Melanocyte-Stimulating Hormone (MSH)) 286

Hideshi Kobayashi, Shunichi Kambara, Seiichiro Kawashima, and Donald S. Farner. The Effect of Photoperiodic Stimulation on Proteinase Activity in the Hypothalamo-Hypophysial System of the White-crowned Sparrow, *Zonotrichia leucophrys gambelii* 296

Minoru Osanai und Yasumasa Arai. Über die Umfärbung der Raupen von *Hestina japonica* zu Beginn der Überwinterung. I. Durchschnürungsversuche an der Umfärbung der *Hestina*-Raupe 311

M. Fontaine et J. Leloup. Le Fonctionnement Thyroïdien du Saumon Adulte (*Salmo salar* L.) a Quelques Etapes de Son Cycle Migratoire 317

P. J. Bentley. Studies on the Permeability of the Large Intestine and Urinary Bladder of the Tortoise (*Testudo graeca*) with Special Reference to the Effects of Neuro-Hypophysial and Adrenocortical Hormones 323

P. J. Bentley and B. K. Follett. The Action of Neurohypophysial and Adrenocortical Hormones on Sodium Balance in the Cyclostome, *Lampetra fluviatilis* 329

Number 4, August 1962

H. Saint Girons et R. Duguy. Données histologiques sur le cycle annuel de la glande thyroïde chez les Vipères 337

Kay E. Dierst and C. L. Ralph. Effect of Hypothalamic Stimulation on Melanophores in the Frog 347

Margaret Clements-Merlini. Altered Metabolism of I^{131} by the Endostyle and Notochord of Ammocoetes Larvae. I. Effects of Treatment with Thyrotropic Stimulating Hormone 354

Margaret Clements-Merlini. Altered Metabolism of I^{131} by the Endostyle and Notochord of Ammocoetes Larvae. II. Effects of Treatment with Thiourea or Potassium Thiocyanate 361

H. Clauser, P. Volfin, and D. Eboué-Bonis. Effect of Insulin on the Phosphorus-32 Mononucleotide and Phosphocreatine Labelling in the Isolated Diaphragm of the Normal, the Hypophysectomized, and the Hypophysectomized Growth-Hormone Treated Rat 369

H. S. Siegel. Critical Ages for Responses to ACTH in Chicks 385

Paul A. Wright. The Influence of Colchicine on Ovulation *In Vitro* in the Frog, *Rana pipiens* 389

B. Lofts. The Effects of Exogenous Androgen on the Testicular Cycle of the Weaver-Finch *Quelea quelea* 394

Malcolm R. Miller. Observations on the Comparative Histology of the Reptilian Pancreatic Islet 407

Number 5, October 1962

Takaaki Ishibashi. Electrical Activity of the Caudal Neurosecretory Cells in the Eel *Anguilla japonica* with Special Reference to Synaptic Transmission . 415

Sykkö Pesonen and Juhani Rapola. Observations on the Metabolism of Adrenal and Gonadal Steroids in *Xenopus laevis* and *Bufo bufo* 425

Susumu Ishii, Tetsuya Hirano, and Hideshi Kobayashi. Neurohypophyseal Hormones in the Avian Median Eminence and Pars Nervosa 433

B. E. Eleftheriou and M. X. Zarrow. Sensitivity to Thyrotropin in Two Subspecies of Deermice (*Peromyscus maniculatus*) and Albino-Swiss Mouse as Measured by I^{131} Depletion 441

Yuichi Tanabe. Influence of Age upon the Ability of Thyroxine and Estrogen to Increase Serum Alkaline Phosphatase of the Chicken 446

Gilbert S. Greenwald. Luteinizing Hormone Content of the Pituitary of the Lactating Mouse 453

O. H. Robertson and Bernard C. Wexler. Histological Changes in the Organs and Tissues of Senile Castrated Kokanee Salmon (*Oncorhynchus nerka kennerlyi*) 458

Roy V. Talmage and S. B. Doty. The Effect of Sodium Fluoride on Parathyroid Function in the Rat as Studied by Peritoneal Lavage 473

Donald H. Ford, Stanley K. Fishman, and Ralph Rhines. The Uptake of I^{131}-Labeled-L-Triiodothyronine by the Brain, Pituitary, and Muscle of Diestrous and Estrous Female Rats as Compared with the Uptake in Male Rats . . 480

Howard A. Bern, Carolyn C. deRoos, and Edward G. Biglieri. Aldosterone and Other Corticosteroids from Chondrichthyean Interrenal Glands 490

Hideshi Kobayashi, Yoshihiko Oota, and Tetsuya Hirano. Acid Phosphatase Activity of the Hypothalamo-Hypophyseal System of Dehydrated Rats and Pigeons in Relation to Neurosecretion 495

Peter W. Hochachka. Thyroidal Effects on Pathways for Carbohydrate Metabolism in a Teleost 499

H. Richard Fevold and Kristen B. Eik-Nes. Progesterone Metabolism by Testicular Tissue of the English Sparrow (*Passer domesticus*) during the Annual Reproductive Cycle 506

Irvine R. Hagadorn. Functional Correlates of Neurosecretion in the Rhynchobdellid Leech, *Theromyzon rude* 516

Jeannine Doerr-Schott. Evolution des Cellules Gonadotropes β au Cours du Cycle Annuel chez la Grenouille Rousse *Rana temporaria* L. Etude au Microscope Electronique; Observations Histochimiques et Cytophysiologiques . 541

Reiko Yoshida and Roy V. Talmage. Removal of Calcium from Frog Bone by Peritoneal Lavage, a Study of Parathyroid Function in Amphibians . . . 551

Bo Hellman, Ulf Rothman, and Claes Hellerström. Identification of a Specific Type of α Cell Located in the Central Part of the Pancreatic Islets of the Horse 558

Madeleine Olivereau. Modifications de l'Interrénal du Smolt (*Salmo salar* L.) au Cours du Passage d'Eau Douce en Eau de Mer 565

A. Tixier-Vidal and I. Assenmacher. The Effect of Anterior Hypophysectomy on Thyroid Metabolism of Radioactive Iodine (I^{131}) in Male Ducks 574

G. J. van Oordt. Trends in the Study of the Comparative Endocrinology of Reproduction in Vertebrates 586

Abstracts of Papers Presented at the Conference of European Endocrinologists. September 20–22, 1962 600
